PROFILE SUMMARY

Dedicated Computer Science student with a robust background in software development, specializing in both web and desktop applications. Seeking an internship opportunity to apply and expand my technical skills, gain hands-on experience, and contribute to innovative projects within a dynamic organization.

PROJECTS

Job Posting Web Application
- Designed and implemented a job posting platform inspired by BDjobs, utilizing HTML, CSS, PHP, and AJAX.
- Integrated features such as user authentication, job listings, and application tracking to enhance user experience and functionality.

Online Education Platform
- Developed a comprehensive web application using NestJS, NextJS, HTML, and Tailwind CSS, featuring course listings, user profiles, course approval functionality.
- Implemented additional features including report post system, order placement, quiz management, and profile management to enhance user experience and application functionality.

Super Shop Management
- Developed a robust desktop application for shop management using C# and .NET, incorporating comprehensive features such as inventory management, sales tracking, and customer management. This system streamlines business operations and improves overall efficiency.

LANGUAGE

- Bangla : Native
- English : Fluent
